

# State Perspectives on Ozone NAAQS Implementation

Association of Air Pollution Control  
Agencies (AAPCA) Fall Meeting  
Raleigh, North Carolina  
September 18, 2018

**Keith Baugues**  
**Assistant Commissioner**  
**Office of Air Quality**

**Indiana Department of Environmental Management**

# Geographical Coverage for an Ozone Nonattainment Area

- Partial County
- Whole County
- Multi County
- Multi State

## Louisville Example

- Only exceeding monitors at the time of designation were in Kentucky.
- Yet all of Clark and Floyd Counties in Indiana were designated nonattainment.

# Lake/Porter County Example

- Although all ozone monitors in Lake and Porter Counties showed attainment, only five townships in Lake County were designated nonattainment.

# Areas Meeting the 2015 Ozone Standard, but not the 2008 Standard

- How is this possible?
- How do you explain it to legislators?
- Has serious consequences (I/M).
