Dear Friends,

I am pleased to be able to share with you the results of the Texas State Joint Information Center's (TSJIC) investigation into the January 7, 2017 shooting at the University of Texas at Austin. The TSJIC was established to provide a transparent and timely account of the events of that day, and to ensure that the public has access to the information it needs to understand what happened and why.

Investigation Findings: The TSJIC's investigation found that the shooting was the result of a single shooter who fired from a single location. The shooter was identified as a 22-year-old male who was a student at the University of Texas at Austin. The TSJIC's investigation also found that the shooter was not affiliated with any known extremist group or organization.

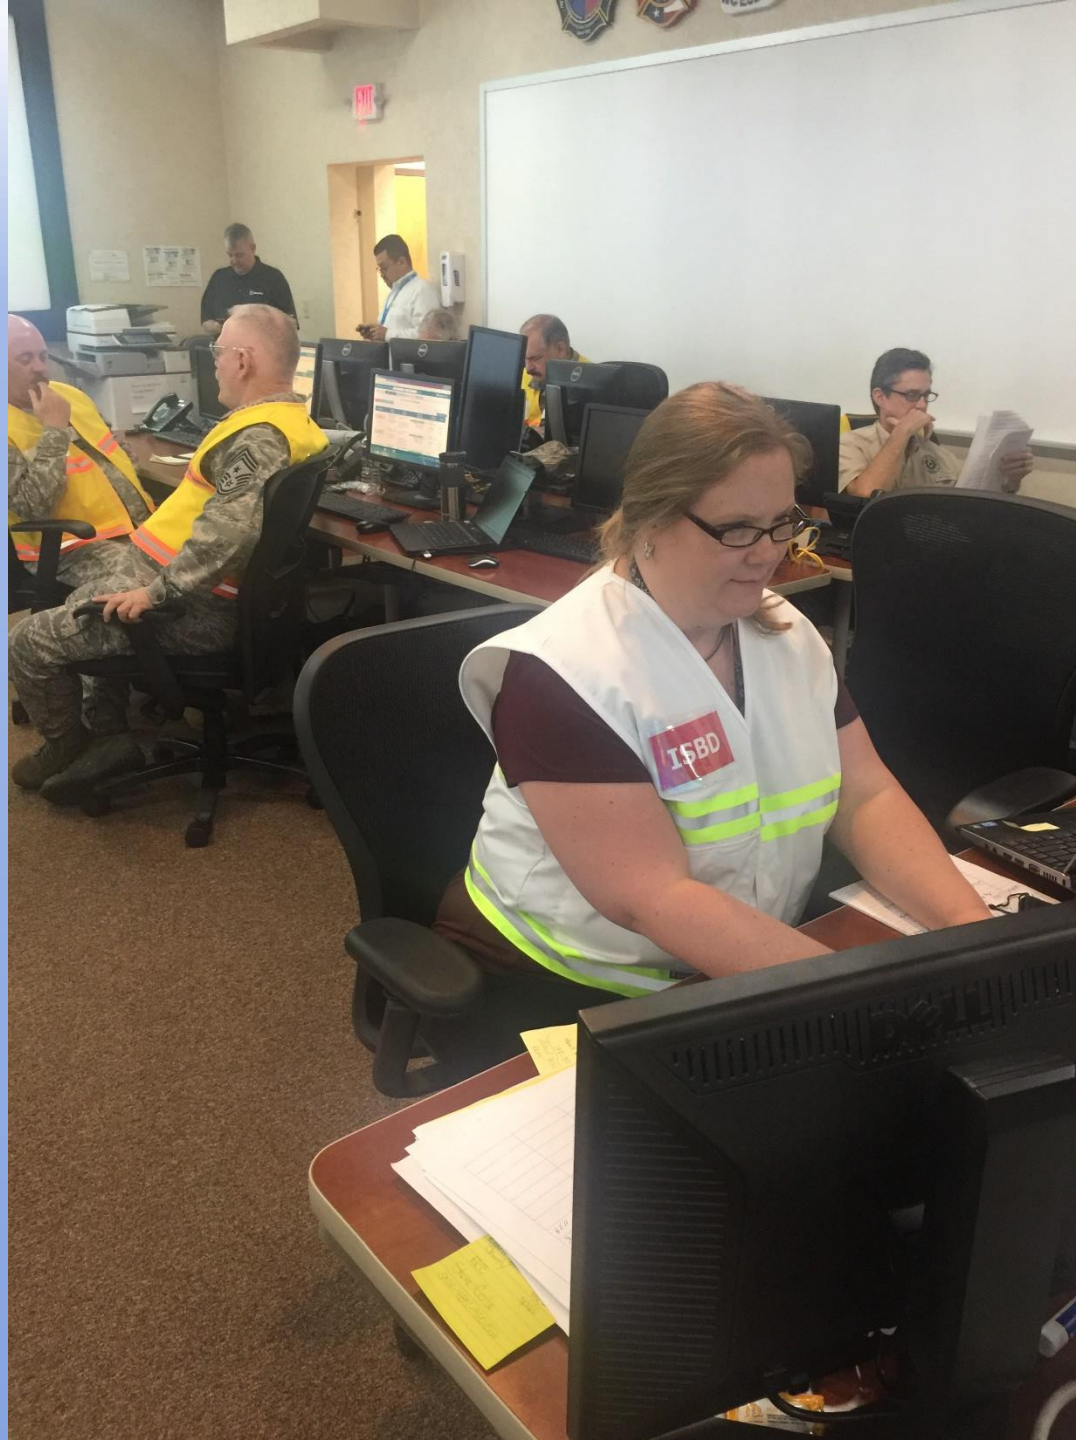

Security Review: The TSJIC's investigation also found that the University of Texas at Austin's security measures were adequate for the event. The TSJIC's investigation also found that the University of Texas at Austin's security measures were adequate for the event.

Next Steps: The TSJIC's investigation also found that the University of Texas at Austin's security measures were adequate for the event. The TSJIC's investigation also found that the University of Texas at Austin's security measures were adequate for the event.

A satellite image of a hurricane with a prominent eye and spiral cloud bands. The image is overlaid with large, semi-transparent red and green shapes that resemble torn paper or abstract patterns. The text "TCEQ" is positioned above the main title, and the title itself is in a large, bold, white sans-serif font with a black drop shadow.
