  - September 2016 Initial State Plan or Extension Request Due
  - December 2016 SIP Attainment Due

*On February 9, 2016, the U.S. Supreme Court stayed implementation of the Clean Power Plan. According to U.S. EPA: “EPA firmly believes the Clean Power Plan will be upheld when the merits are considered because the rule rests on strong scientific and legal foundations. For the states that choose to continue to work to cut carbon pollution from power plants and seek the agency’s guidance and assistance, EPA will continue to provide tools and support.”

The Association of Air Pollution Control Agencies (AAPCA) is a national, consensus-driven non-profit organization focused on assisting state and local air quality agencies and personnel with implementation and technical issues associated with the federal Clean Air Act. You can find more information about AAPCA at: [http://www.cleanairact.org](http://www.cleanairact.org)
